Let $k13_xtuple_0 : \iota \Rightarrow \iota$ be given. Let $k2_xboole_0 : \iota \Rightarrow \iota \Rightarrow \iota$ be given. Let $k9_xtuple_0 : \iota \Rightarrow \iota$ be given. Let $k11_xtuple_0 : \iota \Rightarrow \iota$ be given. Assume the following.

$$\forall X0. \forall X1. k9_xtuple_0 (k2_xboole_0 X0 X1) = k2_xboole_0 (k9_xtuple_0 X0) (k9_xtuple_0 X1) \quad (1)$$

Assume the following.

$$\forall X0. k13_xtuple_0 X0 = k9_xtuple_0 (k11_xtuple_0 X0) \quad (2)$$

Assume the following.

$$\forall X0. k11_xtuple_0 X0 = k9_xtuple_0 (k9_xtuple_0 X0) \quad (3)$$

Theorem 1

$$\forall X0. \forall X1. k13_xtuple_0 (k2_xboole_0 X0 X1) = k2_xboole_0 (k13_xtuple_0 X0) (k13_xtuple_0 X1)$$
